

A circular inset image showing a modern waiting area. In the foreground, there are several light-colored upholstered armchairs with wooden armrests. Behind them is a large, lush green living wall with various plants, including ferns and broad-leafed species. To the right, a large window with white frames looks out onto a bright outdoor area. The floor is made of light-colored square tiles.

WELCOMING & WAITING

ENGINEERED TO ENDURE®

NORIX

Front Of House

Entryways, lobbies, and waiting areas set the mood of entire establishments and organizations. As facilities modernize their look to create dignified, humanized environments, Norix has developed several furniture lines to meet the growing demand.

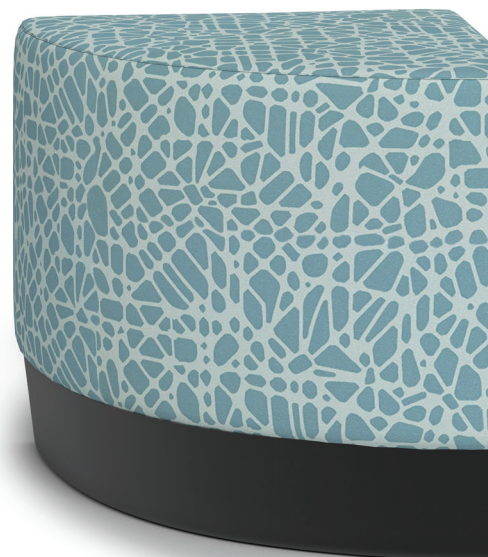

The reputation for Norix long-lasting durability is built from innovative furniture solutions for ultra-secure areas. When engineering furniture, Norix creates high standards for longevity in high-demand environments even where intentional destruction is omnipresent. In transitioning from ultra-secure areas to the front-of-house, Norix retained many features that keep furniture safe and easy to clean and incorporate modern and attractive designs to create a professional and uplifting atmosphere.

Norix furniture is highly configurable, with hundreds of color and upholstery options to blend well within your facility. Several lines of seating and tables have the unique ability to be appropriately scaled to meet the security and sanitation demands of the facility. Choose inviting furniture options such as upholstery and padding for when security demands are low, or consider fewer options when cleanliness and durability demands are high.
